github.com/MeenakshiEnhancer

Summary

B.Tech graduate with hands-on knowledge of Excel, Power BI, Power Query, SQL and Python for data analysis and reporting. Skilled in data cleaning, data modelling, KPI tracking, dashboard development, trend analysis and machine learning. Strong analytical, communication and problem-solving skills.

Experience

Data Analyst Intern, Internnova

08/2026 – 09/2026

- Worked on data cleaning, analysis, visualization, and dashboard development using Excel, Power BI, SQL, and Python.
- Built Health Appointment & Patient Analytics and HR Analytics Automation dashboards.

Data Science Intern,

Inversion Consultancy LLP In Collaboration with APSCHE

05/2025 – 07/2025

- Worked on Flight Passenger Satisfaction Prediction, gaining practical experience in Python, data cleaning, EDA, machine learning, and Streamlit deployment.

Intern, iGenuine

06/2025 – 06/2026

- Gained practical exposure to Core Java, HTML, CSS, and basic JavaScript, while developing problem-solving, teamwork, and communication skills through hands-on learning activities.

Education

B.Tech (ECE), Audisankara College of Engineering Technology

2022 – 2026

CGPA 9.23/10

Intermediate (MPC), Narayana Junior College

2020 – 2022

Marks: 966/1000

SSC, Green Valley English Medium School

2019 – 2020

GPA 10/10

Skills

Data Analysis & BI

Excel, Power BI, Power Query, DAX

Database

SQL, MySQL

Programming & Data Processing

Python, Pandas, NumPy, Scikit-learn

Business & Reporting Skills

KPI Tracking, Trend Analysis, Data Cleaning, Data Quality, Data Modelling, Dashboard Development, Reporting

Machine Learning

Regression, Classification, Decision Tree, Random Forest

Tools

PowerPoint, Git, GitHub

SOFT SKILLS

- Communication, Analytical Thinking, Problem-Solving, Teamwork, Leadership, Attention to Detail

Achievement

Gold Medal - Academic Excellence

Awarded Gold Medal for securing the highest CGPA in the ECE Department

Smart India Hackathon (SIH) selection

Selected for Smart India Hackathon (SIH) at college level

Certification

- Power BI for Data Analysis
- Analytics with SQL and Python from Great Learning
- Python for Data Science from NPTEL
- AI Machine Learning Engineer from National Skill Development Corporation
- Career Edge - Young Professional from TCSiON
- Python Training from Besant Technologies

Projects

Customer Purchase Behavior & Sales Analytics

- Processed and analyzed customer and sales data using Python and SQL to identify purchasing patterns and business trends.
- Prepared structured reports and insights from analyzed data.
- Developed a Power BI dashboard with KPIs and visualizations to present information clearly.

Flight Passenger Satisfaction Prediction

- Cleaned airline survey data and performed EDA with feature encoding.
- Built Logistic Regression, Decision Tree, and Random Forest models; Random Forest achieved the best performance.
- Deployed the model using Streamlit for interactive prediction.

Remote Sensing-Based Soil Quality Assessment using Machine Learning in Cloud Environment

- Led a team to gather Landsat-8 and Soil Health Card data for soil quality classification.
- Built a cloud-based ML model, comparing Random Forest and KNN; Random Forest delivered superior accuracy.
